First of all, she has a teacher named Mr. Crabbet—who is very, very, crabbly. Then, her mom gives her a recorder that seems to make mysterious things happen. Lotta also wants to get her own pet. ... no matter what it takes. But her parents' refusal to consider her request, a fight with her best friend, and that weird recorder keep getting in the way. Can Lotta make it all work out?“Having been born a freeman, and for more than thirty years it enjoyed the blessings of liberty in a free state— and having at the end of that time been kidnapped and sold into slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uneirsthing to the public.”—an excerpt his book constitutes the refereed proceedings of two workshops held at the 23rd International Conference on Financial Cryptography and Data Security, FC 2019, in St. Kitts, St. Kitts and Nevis, in February 2019. The 20 full papers and 4 short papers presented in this book were carefully reviewed and selected from 336 submissions. The papers feature the outcome of the 4th Workshop on Advances in Secure Electronic Voting, VOTING 2019 and the Third Workshop on Trusted Smart Contracts, WTSC 2019. VOTING covered topics like election auditing, voting system efficiency, voting system usability, and new technical designs for cryptographic protocols for voting systems. WTSC focuses on smart contracts, i.e., self-enforcing agreements in the form of executable programs, and other decentralized applications that are deployed to and run on top of (specialized) blockchains. The present study addresses one of an epistemological nature which hinges on the question of how to define Jewish thought. It will take its start in an ancient question, that of the relationship between Jewish culture, Greek philosophy, and then Greco-Roman (and Christian) thought in connection with the inquiry into the history and genealogy of wisdom and knowledge. Our journey into the history of the denomination ‘Jewish philosophy’ will include a leg that will lead us to certain declarations of political, moral, and scientific principles, and then on to the birth of what is called philosophia perennis or, in Christian circles, priscas theologia. Our subject of inquiry will thus be the birth of the concept of Jewish philosophy, Jewish theology and Jewish philosophy of religion. A special emphasis will fall on the topic treated in the last part of this study: Jewish scepticism, a theme that involves a philosophical attitude based on dialectical “enquiry,” as the etymology of the Greek word skeptikos properly means. Paul Vanderamer could be at any normal high school here, girls, and annoying teachers are just part of life. But “normal” doesn’t apply when it comes to the school’s biggest bully, Roth—a twisted and threatening thug with an awkward agenda. When Paul ends up delivering a message from Roth to the leader of a gang at a nearby school, it fuels a rivalry with immediate consequences. Paul attempts to distance himself from the feud, but somehow Roth keeps finding reasons for him to stick around. Then one day Roth hands him a knife. And even though Paul is scared, he has never felt so powerful. When Charlie gets stressed, something a little bit different happens, he turns into an animal! Unfortunately, things are getting quite stressful for Charlie, and it's getting harder and harder to control his powers. Can Charlie's friend help him master his powers once and for all, or will he end up stuck as a pigeon forever? After the phenomenal success of The Storm Whale and On Sudden Hill, this new book by Benji Davies deals with the emotional topic of losing a grandparent. Subtly told, this beautifully illustrated book tackles a difficult subject with great sensitivity and care. At the bottom of the Syd's garden, Grandad dug a hole one more time and set sail for home. Visiting Grandad's house at the bottom of the garden, he finds it just the same as it's always been — except that Grandad isn't there anymore. Sure to provide comfort to young children struggling to understand loss, Benji Davies's tale is a sensitive and beautiful reminder that our loved ones live on in our memories long after they're gone. Praise for Grandad's Island: 'Davies's elegantly rough illustrations, evoking a child's paintings, tap into the imagination of death with little fuss, and his story declines to offer kids instruction on how to feel. Indeed, Grandad's Island doesn't mention death at all, but is deeply in touch with the ways in which loss and abundance commingle in the mind, correcting and assuaging each other.' The New York Times Book Review 'The creator of The Storm Whale (2014) offers another thought-provoking picture book guaranteed to spark discussion on grief and the ways families deal with loss, especially those who prefer to gloss over the societal realities.' Booklist 'Online A's with The Storm Whale, Davies offers a story of loneliness and togetherness distinguished by understated, deeply felt emotions and a nautical milieu.' It’s a beautiful and affecting book.' Kirkus 'An inspirational story about how it’s about friendship and about loss and carrying on, and the ways we say goodbye. It’s a beautiful and affecting book.'
